| Title                                                                                                                                                                          | URL | Authors                                                                                                                                | Host item title |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|----------------------------------------------------------------------------------------------------------------------------------------|-----------------|
| The Flexion Relaxation Phenomenon in Patients with Radiculopathy and Low Back Pain: A Cross-Sectional Study                                                                    |     | Peharec, Marijan; Peharec, Stanislav; Srhoj-Egekher, Vedran; Jerković, Romana; Girotto, Dean; Starčević-Klasan, Gordana                |                 |
| Relationship between Physical Activity and Sedentary Behavior, Spinal Curvatures, Endurance and Balance of the Trunk Muscles-Extended Physical Health Analysis in Young Adults |     | Marijančić, Verner; Grubić Kezele, Tanja; Peharec, Stanislav; Dragaš-Zubalj, Nataša; Pavičić Žeželj, Sandra; Starčević-Klasan, Gordana |                 |
| Classification and clustering of low back pain patients by analyzing surface myoelectric signals                                                                               |     | Srhoj-Egekher, Vedran                                                                                                                  |                 |
| Feature Modeling for Interpretable Low Back Pain Classification Based on Surface EMG                                                                                           |     | Srhoj-Egekher, Vedran; Cifrek, Mario; Peharec, Stanislav                                                                               |                 |
| Utjecaj primjene kinesiotaping metode na opseg pokreta natkoljenice u zglobu kuka i međumišićnu koordinaciju u području zdjelice                                               |     | Kiseljak, Dalibor                                                                                                                      |                 |
| Contribution to differential electromyographic diagnostics of low back pain and radiculopathy                                                                                  |     | Ostojić, Saša                                                                                                                          |                 |
| Ultrasonografija u fizioterapiji                                                                                                                                               |     | Peharec, Stanislav; Šustić, Alan                                                                                                       |                 |
| Ultrasonografija u fizioterapiji                                                                                                                                               |     | Peharec, Stanislav; Šustić, Alan                                                                                                       |                 |
| UČINAK NEURODINAMIČKIH VJEŽBI I MEDICINSKIH VJEŽBI U LIJEČENJU KRONIČNE KRIŽOBOLJE                                                                                             |     | Kercan, Barbara                                                                                                                        |                 |
| Regeneracija skeletnog mišića i uloga regeneracijskih gena                                                                                                                     |     | Starčević-Klasan, Gordana; Martinčić, Tina; Nikolić, Marina; Josipović, Orijana; Peharec, Stanislav; Bobinac, Dragica                  |                 |
| Kinematska analiza statičkih i dinamičkih karakteristika kralježnice zdravih osoba i pacijenata s lumbalnim bolnim sindromom                                                   |     | Peharec, Stanislav                                                                                                                     |                 |
